

LANCASTER AIRPORT AUTHORITY HVAC TECHNICIAN – JOB OPENING

Join the Lancaster Airport Authority, working in a unique and rewarding environment!

We offer competitive pay and benefits including healthcare, retirement plan, performance bonuses, steady work, and opportunities for growth. This full-time job is for Monday - Friday 8am to 4:30pm with occasional work outside of normal business hours.

HVAC TECHNICIAN will be responsible for responding to service calls for repairs; performing HVAC service maintenance on various systems including split systems and packaged units, furnaces, heaters and air conditioners. Maintaining records on all HVAC equipment to include service, filter sizes and unscheduled maintenance for all Lancaster Airport Authority owned buildings. Our building inventory includes everything from large commercial buildings to small residential dwellings.

Technicians will perform preventative maintenance; installation and service of HVAC equipment, heat pumps, gas furnaces, boilers and roof-top equipment.

As a Lancaster Airport employee, the primary function of this role will be HVAC related; however, technicians will occasionally be tasked with assisting in various Airport projects unrelated to HVAC work. These tasks provide the opportunity to work alongside airport colleagues with a team-based approach to completing unique and varied projects.

Ideal candidates for this position should possess the following qualifications:

- Minimum of 3-5 years of experience with HVAC equipment
- EPA Section 608 Type II or Universal Certification
- A valid drivers' license is required.
- Ability to pass pre-employment drug screen and full background check

Submit a resume to employment@lancasterairport.com to be considered for the position. Please no phone calls. Potential candidates will be contacted to schedule an interview.
