### **American Airlines Connects Lancaster, Pennsylvania, to its Global Network with New Service**

FORT WORTH, Texas — American Airlines is once again giving customers a new option to connect to its global network through a partnership with transportation platform Landline. Starting Aug. 16, Landline will connect customers in Lancaster, Pennsylvania (LNS), to the carrier's Philadelphia (PHL) hub with its state-of-the-art vehicles. This new destination to American's route map complements recently announced Landline service in Allentown/Bethlehem, Pennsylvania, and Atlantic City, New Jersey, beginning June 3.

Traveling on Landline is not only a convenient way to start and end a journey, it's a time-saver, too. Customers begin their trip at the Lancaster airport, check in with American, and clear security\* just as they would for a flight, but board a Landline vehicle instead of an aircraft. Upon arrival in PHL, they'll deboard airside, enter the terminal and proceed directly to their connecting flight. When they're ready to return home, they'll board a Landline vehicle in PHL and arrive at LNS. American will seamlessly transfer customers' checked bags between Landline's vehicles and American's flight network.

"Our partnership with Landline is one more way we're making it easy for customers to connect to American's premier trans-Atlantic gateway in Philadelphia," said Brian Znotins, American's Vice President of Network Planning. "Customers can start and end their journey at Lancaster airport, relax on a comfortable Landline vehicle, and leave the driving to someone else while they work or start their vacation early. From road to runway, we're excited to welcome customers on board."

Members of American's award-winning AAdvantage® loyalty program will also earn miles and Loyalty Points when traveling on Landline-operated routes.

"For too long, travelers have been bothered by all of the ancillary parts of flying, including getting to and from the airport, parking, transporting their bags, and navigating security. We're changing that," said Landline CEO and co-founder David Sunde. "Landline is proud to partner with American to make travel even more efficient, affordable and relaxing. Alongside American, we're excited to introduce travelers to a whole new level of convenience and comfort."

Landline vehicles accommodate up to 35 customers and feature leather seating, complimentary Wi-Fi, streaming entertainment and power at every seat. Tickets for itineraries with American and Landline service will be available for sale May 9.

## Landline Schedule

Starting Aug. 16, Landline will operate the following schedule:

Departs LNS	Arrives PHL	Departs PHL	Arrives LNS
6:00 a.m.	7:40 a.m.	10:50 a.m.	12:35 p.m.
4:00 p.m.	5:45 p.m.	8:59 p.m.	10:44 p.m.

\* *Pending regulatory approval.*
